### DETAILED ACTION

The amendment of the claims filed 6/7/05 has caused plural inventions to be introduced into the case warranting a restriction as follows:

#### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claim 3, drawn to a method of obtaining answers through an online questionnaire withy email feature, classified in class 705, subclass 19.
- II. Claims 4,5,1011,13,18-20,22-27, drawn to a report generator w/ tax credit data, classified in class 705, subclass 31.

The inventions are distinct, each from the other because:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as a method of direct marketing. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication should be directed to Joseph A. Fischetti at telephone number (703) 305-0731.
